Item 7.01. Regulations FD Disclosure

Flexsteel Industries Inc. (the “Company”) confirms its outlook for its third and fourth quarters of fiscal year 2016 as was set forth in its second quarter earnings press release, dated February 4, 2016. In that release the Company stated in part:

“The Company believes that demand for furniture products in the United States is moderating. The prior fiscal year West coast port congestion resulted in lower second quarter net sales and higher net sales in the subsequent quarters as the congestion cleared. As a result, the Company expects moderate top line growth for the balance of the fiscal year. Residential growth is expected to continue with existing customers and products, and through product portfolio and customer base expansion. The Company believes this growth will be led by increased demand for upholstered and ready-to-assemble products. The Company is confident in its ability to take advantage of market opportunities.”

The published analyst projections of net sales for the Company’s third and fourth quarters of fiscal year 2016 exceed the Company’s moderate growth expectations. In addition, the published analyst projections for earnings per share exceed the Company’s recent operating performance levels.
